

# PExOD-CIP Mapping

Author: Administrator User<dfp@ez.no>

CIP fields that are supported by PExOD.

CIP Field	CIP field name	Sourced from PExOD
CIP agent this form is submitted to	CarbonCopy	User determined at Edit Export / CIP Recipient
Publisher Name	M_Publisher	Title Data / Publisher / Publisher:  where the Publisher Role is "Publisher"
Publisher Address	M_Publisher_Address1	From the address associated with the contact set at Edit Export / Sending Contact  If the CIP export continues to merit support ( if CIP doesn't accept ONIX messages ) and it turns out  that this address is not for contact, but for business identification, then this should be changed.

Publisher City/Town	M_Publisher_City	Same as Publisher Address
Publisher Province	M_Contact_Province	Same as Publisher Address  Note that the CIP form provides this as a select list. The PExOD values are not standardized.  This shouldn't be an issue since the CIP data is reviewed by hand.
Publisher Postal Code	M_Publisher_Postal_Code	Same as Publisher Address
Publisher Area Code	M_Publisher_Area_code	Same as Publisher Address  Parsed out of the phone number, which requires the inclusion of the area code.
Publisher Telephone	M_Publisher_Telephone_Number	Same as Publisher Address

Publisher Telephone Extension	Publisher_Extension_Number	Same as Publisher Address
Publisher Fax Area Code	Publisher_Fax_Area_code	Same as Publisher Address
Publisher Fax	Publisher_Fax	Same as Publisher Address
Publisher Web site URL	Publisher_URL	Same as Publisher Address
Contact Person Name	M_Contact_Name	The contact set at Edit Export / Sending Contact  That is, the same as Publisher Address
Contact Person Email	Contact_E-mail	Same as Contact Person Name
Contact Person Means of Communication	Contact_Communication	Hard-coded in export to be: "E-mail"
Contact Details if different than Publisher	Contact_Address	Left blank, since the address is the same as the publisher address
Recipient of CIP Entry	Contact_Two_Name	Edit Export / Reply-To Contact

Recipient of CIP Entry Means of Communication	Contact_Two_Transmission	Hard-coded in export to be: "E-mail"
Recipient of CIP Entry Contact Info	Contact_Two_Address_etc	Built up from all the contact info associated with the Recipient of CIP Entry contact info
CIP Field	M_Planned_Year_of_Publication	Title Data / Publication Info / Publication Date
CIP Field	M_Planned_Month_of_Publication	Title Data / Publication Info / Publication Date
CIP Field	M_Year_CIP_required	Edit Export / Reply-by Date
CIP Field	M_Month_CIP_required	Edit Export / Reply-by Date
CIP Field	M_Day_CIP_required	Edit Export / Reply-by Date
Image of finalized title page	Finalized_Title_Page	Not transmitted  There is no equivalent in PExOD, and it seems that alternative means are available to communicate this information
